ONE IDEA THAT WOULD GET YOU DOWN THERE

8 people wrote one in, word for word.

> More food options at odd hours and less communal tables

> I love the idea of an open mic night!

> More boardgames, better lighting

> More games available and comfortable seating!

> Nothing now that it's been "rebuilt" the redo looks so tacky and not traditional KU at all. It's disappointing and erasing our KU legacy.

> plants!

> More affordable snack options, some students don't have that much money, so more affordable snacks, though I do understand it is higher to pay the employees it makes sense. So maybe there isn't a fix.

> Clean comfy spots to sit and do homework with natural lighting
